

IFS PROGRESS LOGISTICS

Moving forward with established distribution processes

IFS Progress Logistics offers you a structured way to establish robust services in relation to product safety and quality. It is a development program designed to help you achieve IFS Logistics Certification step by step.

Industry experts in logistics services contributed to establishing the program, ensuring it is realistic and relevant to market needs. Highly recognised assessors evaluate your logistic services management, hazards and risks, and compliance with legal and customer requirements. The assessment reports, the scoring system, and IFS's supportive tools help you continuously improve your processes to achieve your goals.

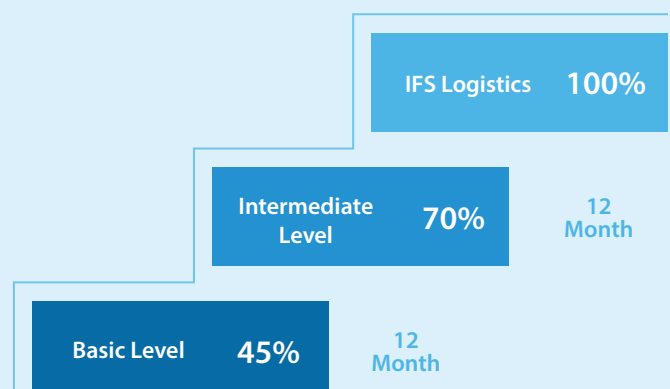

IFS Progress Logistics: Protect brands. Build resilience. Drive progress.

Main features of the program

IFS Progress Logistics offers a phased two-level program:

- > Basic level covers 45% of the IFS Logistics Standard
- > Intermediate level encompasses 70%
- > Each level can take one year to complete
- > Aim is to reach the certification level (100%) in three years

Requirements of IFS Logistics
